

## Earth and humanity's fate are one

*I am White Eagle.*

All your concerns regarding the changing of the Earth are valid as so much is due to change. We cannot express how drastically Earth life will change. Nor can we say for certain how long the process will take. In your terms, it is longer than in our terms.

You see, there is a crystal ball within each one of us. It is our antenna attuned to the Earth and all her moods. We are so tied to the Earth that her fate is our own and yet humankind has ignored all the messages coming from the Earth in the last hundred years.

Humankind has wantonly used her resources, shamefully destroyed her forests, her wild animals, her seas – her natural ways and beauty have been devastated by humankind.

Humankind has failed to understand its connectedness with the Earth and by seeing the Earth as other than humankind, it has divorced itself from its fate. Humankind does not acknowledge that the Earth and humanity's fate are one and the same.

There is no sequential way out of this dilemma. Only quantum leaps can bring you to fulfillment joining the Cosmic Consciousness that connects the One with the All.

Vehicles are provided for this transition. Various means of meditation, spiritual practices, are poking holes into the Cosmic Consciousness, opening ways for others to follow so that we all may ascend to the fourth dimension and beyond.

The Earth can no longer survive in the third dimension. It must change or lose its life. And so must we all.

The reality is that no life is lost. Life goes on and human and cosmic consciousness, as the two are intertwined, and the Earth consciousness, too, will rise and change.

Where is the Keeper of the Cosmic Consciousness? You shall see the Truth. You shall know the Truth and the Truth will set you free.
