

The world is expanding

I am White Eagle.

Say this to my brothers and sisters on Earth. The world is expanding at an incredible rate, incredible to humans and perhaps surprising to us. And yet the expansion of the Earth is all part of the Divine plan for all beings to expand and take in more light until each one is truly the "Light of the World." For the world is truly in need of expansion in thought, in mind and heart and soul.

Expansion brings enlightenment, illumination, welcoming the new Earth and the new light that will shine forth from each and every one. No one will be left out. For we remain as we have been and always will be – all One. The energy that moves me is in you and so we are all energized and motivated by the One Great Force – the Divine Will, Holy Compassion, moving through every cell of your body motivating your every thought, word, deed.

Every heart shall rise to the occasion of great enlightenment. Every heart shall see a new world – one no longer motivated by greed or fear or misunderstanding but one illumined by the Light, tossing upon the waves of magnetic energy, waves of peace and love and glory, waves of rapture and true happiness, waves of holiness, of compassion and love.

Humankind will no longer walk in darkness but always and continually in the Light – a Light which will mark their footsteps – each step a token of wisdom and true understanding, each thought a divine thought, each word-holy, each touch adorned with compassion, each heart pumping with joy, lips wreathed with laughter, eyes twinkling with kindness.

The softness of scent wafting in the breeze will bring us all to our senses. Our sense of a higher order that rules all things, that brings all to justice and right thinking, that animates our prayers and thanksgiving, that honors each one as a part of the whole. Truly, we are all One.

And so as the Earth rises and expands, that truth dawns in the hearts of every living creature. All beings will be infused with this great Truth and understand at last what it means to live in harmony with the Divine. Each one will know "The Truth." They shall behold the Truth and they shall live the Truth for then we shall all BE the Truth, joined in the Light of Love everlasting.

The ocean of Love is upon us. The sea of changes will bring waves of happiness, of rejoicing for the New Earth – born again, recreated once again in the image of God – wholly Divine, wholly loved, pure and unsullied, golden in the sky, a beacon of love for all the Universe to behold.

So comes the New Earth. So comes the new life that spreads out before you in waves of everlasting glory and love eternal.

Hold to this vision. Keep to this peace. Let no one move you aside in your vision. Hold to the Truth, See the Truth, Know the Truth, BE the Truth! For you are the hope of the world and the world is the hope of the Universe.

Be thankful for all you are given. This time is precious in all of history, in all of Time – this Time is different! It is all new and we are all new – through you! Create again this Masterpiece of Light – Make it Shine! Make it Shine! Make it Shine!
